

## UPS (UNINTERRUPTED POWER SUPPLY):

To ensure the viability of your stored vaccines is not compromised due to power loss, uninterrupted power supply ensure continuous power is available to ensure your refrigerator operates at the required temperature and humidity.

In the case of a power failure with an unprotected refrigerator, vaccines need to be **RETESTED, CERTIFIED AND OFTEN REPLACED.**

## WORRY NO MORE

Our new ES pure sine wave interactive UPS is based on energy saving (ES) and environmental protection. The investment in an UPS system will,
